Saurav

Saurav

Summary

Full Stack Developer specializing in JavaScript, React.js, Node.js, and modern web technologies. Experience building scalable web applications with strong backend fundamentals. Software Engineering Intern at Future Kmuniti with real-world development exposure.

Technical Skills

Languages: Python, JavaScript, C, C++, Java(Basic)

Frontend: HTML5, CSS3, React.js, Redux, Next.Js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, RESTful APIs

Databases: MySQL, PostgreSQL, MongoDB, Redis

Other Tools/Technologies: Git, Docker, Postman, TypeScript, CI/CD Pipelines

Experience

Software Engineering Intern — Future Kmuniti

June 2025 – July 2025

- Developed RESTful APIs using Node.js and Express.js for backend services. [Verify](#)
- Optimized database queries and integrated frontend-backend workflows for improved application performance.

Data Analytics Job Simulation — Deloitte

Mar 2026

- Cleaned, analyzed, and interpreted business datasets to generate actionable insights. [Verify](#)
- Executed data analytics techniques in forensic and investigation-based case studies.

Software Engineering Job Simulation — JPMorgan Chase & Co.

Mar 2026

- Completed real-world software engineering tasks including API development and debugging. [Verify](#)
- Designed backend logic and data processing workflows following industry best practices.
- Improved problem-solving skills through practical fintech use cases.

Projects

StockBridge (Zerodha-like Trading Platform)

GitHub

- Built a full-stack stock trading platform with separate frontend (landing pages) and dashboard applications using React.
- Built an interactive dashboard featuring watchlist, holdings, orders, and positions with a clean and responsive UI.
- Integrated RESTful APIs using Node.js, Express, and MongoDB for handling trading data and backend operations.

Video Meeting Application

GitHub

- Built a full-stack video conferencing app using React.js, Node.js, Express.js, and MongoDB.
- Engineered real-time video/audio streaming using WebRTC and Socket.io for low-latency peer-to-peer communication.
- Developed live in-meeting chat feature using WebSockets for real-time messaging.
- Built secure user authentication system with login/signup functionality.

Education

Rajasthan Technical University, Kota

2022 – Present

B.Tech in Computer Science – CGPA: 8.8 / 10.0

Kota, India

Academic Coursework: Data Structures and Algorithms, Operating Systems, Computer Networks, Database Management Systems (DBMS), Artificial Intelligence, Object-Oriented Programming, Web Development, Data Science and Big Data Analytics
